

IMPA²⁰²² GREECE

Maritime Procurement Event

The Event for Maritime Procurement in Greece
SHARING KNOWLEDGE, IDEAS AND INFORMATION

IMPA GREECE

Network, Learn, Debate

The latest in procurement and supply chain management

IMPA Greece is set in Athens and brings together procurement professionals from the Greek shipping community to network, learn and debate the latest issues in supply chain management and procurement.

The 2022 event will see a programme dedicated to what's happening in procurement now and the latest developments that purchasing and supply chain professionals need to know about.

Sustainability and digitalisation will be key headline topics for the one-day event this year alongside close looks at procurement tactics and strategy and problem solving for procurement.

Supplier support

Suppliers bring a wealth of experience and knowledge to any event and this year we are looking for key industry suppliers who are specialist in their field and would like to meet, educate and network with Marine Purchasers attending the event. If you have a client base in Greece and would like to strengthen relationships or are looking to raise awareness of your products and services then the IMPA Procurement Forum is an opportunity not to be missed.

THE IMPA PROCUREMENT FORUM HELD IN ATHENS, IS BACK AND BETTER! PREVIOUS YEARS WELCOMED OVER 160 MARINE PURCHASERS

The 2019 Highlights

Delegates attended a one-day programme of informative Procurement Strategy, Supplier Relationship Management and Senior Procurement Management sessions. In addition to the presentation programme Purchasers and Suppliers were able to meet and network in a relaxed and exclusive atmosphere. Feedback from the attendees was overwhelmingly positive and IMPA is delighted to offer the Procurement community of Greece an Annual Forum dedicated to improving their skills, learning new techniques and networking with industry peers.

What's on the agenda for 2022

Digitalisation

- What's new in digitalisation and what's coming
- The IMPA Marine Stores Guide six-digit code development
- Data in procurement – how to maximise its value

Sponsored by leading ship suppliers, service providers and manufacturers

Sustainability

- The changing role for procurement
- Industry initiatives that are shaping supply chain strategy
- Saving the environment and saving cost – it can be done!

Purchasing manager debate

- Athens based procurement managers answer questions and debate the big issues facing them today – what the challenges are and how do we overcome them.
- How to manage suppliers? Smart buying, Category management, Digitilisation, People Management, marketing of Procurement – the list of subjects is exciting and broad.

Problem Solving and Supplier Presentations

- How can suppliers help you in procurement?
- Supplier based solutions that help overcome problems
- Finding the right supplier? How can you evaluate suppliers?
- Supplier relationship management
